Christmas Activity Book

Meet your Christmas helper!

Hi! I am a little chick who loves Christmas.
I will be with you all through this book.
But I don't have a name yet. Will you give me one?

Dear grown-ups

This book is full of Christmas fun for children aged 3 to 5: mazes, spot the difference, search and find, counting, coloring and many more puzzles. Every page practices something your child will need at school: holding a pencil, noticing small details, counting and thinking a step ahead.

The book has 3 parts: Puzzle Fun, Learn & Count and Color & Create. Each part starts easy and the pages get a little harder as they go, so the last pages are a real challenge. The solutions are at the back of the book.

A few tips

- Pick a calm moment, when your child is rested and fed.
- Let your child choose. There is no need to go in order or to finish a page.
- Read the instructions aloud; the pictures do the rest.
- Praise the effort, not only the right answer.
- Stuck? Give a small hint rather than the answer.

Merry Christmas!

Love, your little Christmas helper

What your child learns

- **Thinking**
  Mazes, shape sudoku, what comes next and word search build logic, planning ahead and problem solving.
- **Looking closely**
  Spot the difference and search and find train attention to detail and the patience to keep looking.
- **Numbers**
  Counting, comparing sizes and color by number make numbers familiar and fun.
- **Hand skills**
  Drawing a way through a maze, circling and coloring strengthen the small hand muscles needed to hold a pencil and write.
- **New words**
  Santa, reindeer, presents, stockings and other Christmas things grow your child's vocabulary. Talk about the pictures together!
- **Confidence**
  Finishing a page, ticking it off and earning the certificate at the end show your child what they can do.

How hard is a page?

★☆ easy, about ages 3 to 4
★★ medium, about ages 4 to 5

Look for the stars above each page's title. Every level has the same number of pages of each kind, so you can pick only one-star pages for a younger child and move up when your child is ready. Every child grows at their own pace: it is fine to stay at one level for a while.
